SALEM, OREGON, TUESDAY, APRIL 7, 1903.

NO. 80.

ISLANDS AND THE ARMY

At Fargo this afternoon the President addressed one of the most enthusiastic audiences he has faced since he left Washington. When the roar that followed his appearance and introduction had subsided, he said:

My Fellow Citizens: The Northwest, whose sons in the Civil War added such brilliant pages to the hon-

President Says We Have Put Down Insurrection And Restored Peace Have Given a Government Without Tyranny, Peace Without Bribe

or roll of the Republic, likewise bore a full share in the struggle of which the war with Spain was the beginning; a struggle slight indeed when compared with the gigantic death

wrestle which for four years stamped to and fro across the Southern States in the Civil War; BUT A STRUGGLE FRAUGHT WITH CONSEQUENCES TO THE NATION, AND INDEED TO

THE WORLD, OUT OF ALL PROPORTION TO THE SMALLNESS OF THE EFFORT UPON OUR PART. Three and a half years ago President McKinley spoke in the adjoining

State of Minnesota on the occasion of the return of the Thirtieth Minnesota Volunteers from the Philippine Islands, where they had served with your own gallant sons of the North

Dakota regiment. After heartily thanking the returned soldiers for their valor and patriotism, and their contemptuous refusal to be daunted or misled by the outcry raised at home by the men of little faith who wished us to abandon the islands, he

(Continued on Fourth Page.)

JOHN JUDY JAILED

Indiana Financier is Indicted

Charged With Stealing a Whole Livery Stable

His Partner in Crime Already Convicted

Indianapolis, April 7.—John Judy, publisher of the Lafayette Call, widely known as a financier and the founder of Judyville, was arrested today on three indictments by the grand jury, and is now awaiting trial under \$25,000 cash bonds. He is accused of being a horse thief, that he conspired with Sam Hunter, and stole an entire livery outfit at Clark's Hill, took it to another county and auctioned it off. Hunter has already been convicted, and it is now said that Hunter was a mere agent for Judy.

She Made it In One Jump

Munich, April 7.—Baroness Matilda VanWisebeck, widow of the late Bavarian state councillor, suicided today, by jumping from the fourth-story window of her residence.

Tillman Indicted

Columbia, S. C., April 7.—The grand jury returned a true bill against Former Lieutenant-Governor Tillman, for the murder of Editor Gonzales, also one for carrying concealed weapons.

Columbia Comes In

Seattle, April 7.—The bark Columbia, 72 days out from Kobe, reached this port. Fifty per cent. reinsurance had been paid. She was picked up by the steamer Norman Isles, bound from Portland to the Orient, and towed into the Sound. The Columbia was dismantled five days ago, and has been drifting helplessly up and down the coast since. Once she was only three miles from the shore.

THE PARTY TODAY AT FARGO

President Puts on His Slouch Hat

Delivers Address Immediately After Breakfast

And then Speaks to Crowd from Hotel Steps

Fargo, April 7.—The President made his address at the opera house immediately after breakfast. For the first time he donned a Western slouch hat. Hundreds failed to gain admittance. Leaving the opera house he addressed an overflow meeting from the balcony of the Waldorf hotel.

Trial Race Postponed

Weymouth, Eng., April 7.—The first official trial race of Shamrock III against Shamrock I, with picked crews, which was to take place today, had to be postponed on account of storms.

Light Vote in St. Louis

St. Louis, April 7.—The intense interest in today's election, which it was expected would result in a crusade against the corruption of the municipal assembly, failed to materialize. The vote is light, and Democrats are confident of success.

Locomotive Exploded

Van Wert, Ohio, April 7.—A Cincinnati Northern locomotive blew up while in the round-house here, at noon, completely wrecking the end of the structure and injuring five, one fatally.

Taft Will Remain

Washington, April 7.—Roosevelt's reference to Taft in such laudatory terms in his Fargo speech today is creating comment here, as the inference is that Taft will remain governor of the Philippines as long as he sees fit, and no booming of General Wood for the place will be effective during Taft's occupation.

Was he Jack the Ripper?

London, April 7.—George Chapman, the Southwark saloon keeper, who is believed to be the mysterious "Jack the Ripper," who in 1888 terrorized White Chapel, was hanged today. He completely lost his nerve, and had to be carried to the scaffold. He poisoned a woman living with him as his wife, two previous wives had died suspiciously, and an autopsy showed that they were poisoned. Chapman claimed to be an American citizen, but couldn't prove it, though he established the fact that he lived in New York in 1894.

HOLLAND STRIKE IS SERIOUS

Mail Trains Alone Are Running

Steamship Lines Have Their Vessel's Idle at the Docks

All Classes of Labor Uniting as in a Common Cause.

Amsterdam, April 7.—A more formidable aspect was given the strike situation in Holland this morning, when the dock laborers, teamsters and railway men formed one compact organization, and announced that hereafter they will make their cause common.

The general strike now proclaimed means that all transportation, both by land and water, throughout Holland will be tied up. The president of the committee of defense last night issued a proclamation in which he says the strike is a protest against the anti-strike bills introduced in parliament by Premier Van Kuyper, which proposes penalties for workmen on state railways who go on a strike.

Alfonso Erratic

Madrid, April 7.—Fears expressed at the palace intimate that Alfonso's mind is weakening, as he is again erratic. He is extremely forgetful, and now announces that he doesn't care whether he marries or not.

Howard On Trial

Frankfort, Ky., April 7.—Jim Howard's attorney this morning withdrew his application for a change of venue, and the case was called for trial. The defense claimed it was unable to get witnesses, and was given until tomorrow to say whether it was ready to go to trial.

Starvation on Steamer

New York, April 7.—The steamer Southwark, which arrived today, after a remarkably slow trip, had an exciting time on the voyage. The passengers charge she put to sea in an unfit and filthy condition, and that there was a famine aboard. There was a riot, and the steerage passengers looted the pantries. The second cabin passengers, to quell this, agreed to give up a portion of their food. The last three days the steerage passengers had nothing to eat but baked potatoes and carrots. After the steamer landed the passengers held an indignation meeting, and may take legal action.

Got a Move on the King

Belgrade, April 7.—In view of the Balkan trouble, King Alexander has issued two proclamations aimed to restore unity in the country. Parliament was dissolved by the first proclamation, and the second restores the old constitution to full validity. This has the effect of nullifying Dragas' efforts to gain the throne for her brother when Alexander dies. This is one of the main causes of the enmity of the people against her.

Wet or Dry In Kansas

Topeka, April 7.—In the municipal elections over the state today it is almost invariably a wet or dry issue. An unusually large number of women are voting, and the Republicans are expected to win.

Body Will be Brought Home

Paris, April 7.—The funeral services of Mrs. Porter will be held at the American church Thursday. The body will be taken to America for interment.

FLAX FIBER SHIPPED

To Be Manufactured at Sico

Salem May Yet be Favored With a Linen Mill

The Crop Shows Steady Increase Every Year

The entire crop of flax that was grown in this vicinity last year, is being shipped to the Sico mill where it will be prepared for more advanced stages of manufacture. It is estimated there are 130 tons of this straw to be treated. But the ownership of the straw does not pass from the Salem company. The manager of the Sico mill is interested also in the industry at Salem, and arrangements have been made with him for the use of his improved machinery in getting the
